FIELD SUPPLIES

CLEAR DISPOSABLE BAILERS

Clear PVC EcoBailers offer great value and features at a very affordable price. Made of clear virgin PVC with a density of 1.31, clear PVC EcoBailers sink as rapidly as weighted bailers without requiring additional weighting material, and because they are clear, they allow visual inspection of well samples. For a super fast sink rate you can use our Superweight PVC EcoBailers, or use 7/8" stainless steel nut. The EcoBailer's bottom spout has been designed to allow a 7/8" nut to be easily screwed onto the bottom spout of the bailer and reused when needed. No other bailer offers this innovative reusable weight system!

CLEAR DISPOSABLE BAILERS

			Unit Price	Case Price
.46" X 3'	85 ml	24 units/case	\$4.00	\$84.00
.70" X 3'	200 ml	24 units/case	\$3.50	\$78.48
1.5" X 1'	342 ml	48 units/case	\$3.25	\$144.00
1.5" X 3'	1025 ml	24 units/case	\$3.50	\$78.48
1.5" X 7'	3000 ml	9 units/case	\$16.00	\$140.00
3.3" X 3'		5 units/case	\$12.00	\$50.00

VOC Slow Emptying Device

\$0.75 \$11.25

POLYETHYLENE BAILERS

Polyethylene EcoBailers use the same design as our popular PVC EcoBailers, and feature a thicker tube wall than competing models. As a result Polyethylene EcoBailers are less likely to bend when handled. Bent bailers will oscillate when traveling down the well column and sink slower. In addition the Polyethylene disposable EcoBailer is the only bailer with an optional weight system, giving you a weighting option at an un-weighted price. Polyethylene EcoBailers provide easier threading, smooth well entry and exit, longer bottoms that prevent silt entry and leakage, and easy pour tops to facilitate the sampling process.

POLYETHYLENE DISPOSABLE BAILERS
